

### **About CEPT University**

Centre for Environmental Planning and Technology (CEPT) is a leading institution located at Ahmedabad. It offers undergraduate and postgraduate programs in disciplines related to the Natural and Built Environment. CEPT University also aspires to train competent technocrats and is a recognized centre of excellence in its areas of pursuit.

### **About Anchor Institute**

The Anchor Institute, concept of Government of Gujarat is one of the proactive approaches for development of need-based and readily employable managerial as well as technical manpower at various levels in the state to meet massive requirement of high quality skilled personnel for fast growing infrastructure sector including real estate. Government of Gujarat has approved CEPT University as State Level Anchor Institute for Infrastructure Sector and has also approved a budget to operationalize the same.

### **About Faculty of Technology**

The Faculty of Technology is driven by the mission to develop and train competent professionals in the design, materials, technology, services and management of the construction environment to complement a sustainable development of nation and society. The Faculty of Technology offers a five - year Bachelor of Technology (Civil-Construction) program and three post graduate programs.

### **Sponsors, Advisors and the Working Committee**

The Anchor Institute Training programs at the Faculty of Technology have been facilitated by the advice and guidance of Prof S P Sapre, Dean; Dr. Prakash Akalkotkar and Prof Reshma Shah, Head. The programs are being worked out and executed by Assistant Professor at the Faculty of Technology - Ms. Dipsha Shah & Ms. Anal Sheth. The programs are financially sponsored by the Anchor Institute.
