

12<sup>th</sup> February 2010

Dear Sir or Madam,

**Improving Legal & Regulatory Efficiency for Water Resource Management Workshop, New Delhi, India, 22-26 March 2010**

**Call for applications – Deadline March 1, 2010**

Dear Sir or Madam,

IDLO is an international intergovernmental organization dedicated to promoting the rule of law and good governance in developing countries, countries in economic transition and in those emerging from armed conflict.

IDLO provides training opportunities for legal professionals in developing countries, and technical assistance in support of legal and judicial reform. IDLO seeks to establish sustainable impact in all of its work. It provides resources, tools and skills; not solutions. Improved laws and regulations and their more systematic application, improved legal skills and strengthened institutions of justice are the legacy of our work

IDLO, in cooperation with American Telephone & Telegraph Company (AT&T India), is organizing a five-day capacity building program on "*Improving Legal & Regulatory Efficiency for Water Resource Management in India*" to be delivered on 22-26 March 2010 in New Delhi, India.

The one week course aims to provide participants with the practical tools and legal knowledge to make effective use of integrated water resources development and management strategies so as to contribute to the judicious management, allocation and utilization of India's water resources at both the national and local levels. It will also analyze how integrated institutional structures, regulatory mechanisms and market-oriented incentives contribute to the sustainable use of water resources; and will provide technical tools to review the current legislative frameworks for both water services and water resources according to economic and social development. IDLO training is practical, participatory and interactive. Each module is led by an international expert and is facilitated by an IDLO training manager. Please refer to the attached course overview for further details.

The course is primarily targeted at senior officials, bureaucrats, or engineers working in water resource management at the national, provincial and municipal levels in India; as well as representatives of the relevant Ministries, NGO lawyers, water supply corporations, municipal departments in charge of water policy and allocation, and private sector contractors involved in water services provision.

The costs covered by IDLO and AT&T are:

- full tuition fees and training materials
- Lunch and refreshments

Completed application forms should be sent by e-mail to [wrm-applications@idlo.int](mailto:wrm-applications@idlo.int) or by fax to +39 06 4040 3232. Candidates are urged to apply as early as possible, but no later than **(March 1, 2010)**.

**Thank you for passing on this information to your contacts and colleagues.**

Yours sincerely,

Patricia Parkinson  
Course Manager, IDLO
