## Percentage distribution of housing units by source of drinking water

## Percentage Distribution of Housing Units by Type of Toilet

2006 NWSDB was maintaining 295 water supply schemes covering 31% of the population with pipe borne water.

Two major projects were planned in 2006 to provide piped sewerage facilities, viz. Kandy Sewerage Project, Ja-Ela and Ratmalana sewerage Project.

Up to now, NWSDB maintains the sewerage systems in Kolonnawa, Dehiwala Mt-Lavinia, Kataragama, Hanthana and Koggala free trade zone.

The CMC maintains the Colombo City Sewerage system on behalf of NWSDB.

A piped sewerage scheme constructed by NWSDB in the coastal town of Hikkaduwa located 100 km South of Colombo, is being operated now.

Wastewater collection, treatment and disposal system of Katunayake, Seethawaka, Biyagama and Koggala Investment Promotion Zones are maintained by the NWSDB on behalf of the BOI.

Treatment systems for Mawathagama, Polgahawela, Modarawila and Mirigama Investment Promotion Zones are being constructed by the NWSDB and will be commissioned very soon.

	2005	2006
<b>SEWERAGE</b>		
Sewerage connections in CMC sewerage System	67,869	68,469
