

# Aqua Foundation IV<sup>th</sup> World Aqua Congress

Exhibition & Conference  
8 -10 December 2010, New Delhi, India

**Emerging New Technologies in Water Sector**  
Present Status and Need for the Future

Organised By :

## About Aqua Foundation

Aqua Foundation is a Non-Governmental Organization which undertakes all necessary initiatives for scientific and social knowledge creation and diffusion regarding water and its vital role in human survival.

With an aim to facilitate exchange of information, expertise and technology among water experts from various countries, Aqua Foundation conducts an annual conference on water, titled "World Aqua Congress". I<sup>st</sup>, II<sup>nd</sup> and III<sup>rd</sup> WAC were organized in 2007, 2008 and 2009 respectively at India Habitat Center, New Delhi. High profile dignitaries, senior officers from Ministries, renowned industrialists belonging to Water Industry, policy makers and leading NGOs participated and witnessed the conferences. The recommendations of the conference are widely circulated, resulting in concrete action for management and sustainable development of this vital resource...WATER

## About IV<sup>th</sup> World Aqua Congress

Previous conferences addressed the issues of Water Resources Availability, Management & Quality (2007), Global Climate Change & Water Resources (2008) and Enhancing Water Use Efficiency (2009). WAC 2010 is being organized with main theme as "Emerging Technologies in the Water Sector- Present Status and Need for the Future". It aims to facilitate the development and application of advanced technology for solving various issues of water sector.

## Themes and Topics

IV<sup>th</sup> World Aqua Congress (Exhibition & Conference) aims to focus on various aspects of water resources with special emphasis on various technologies. Apart from existing and emerging technologies experts will also discuss and deliberate upon the requirements for future developments. This platform shared by decision makers, researchers, academicians and industry, will provide directions to water sector for targeting future development areas, apart from showcasing available leading edge technologies. The key topics are :

- ◆ Technologies for Water Resource Development, Management & Quality
- ◆ Technologies for study of Water Resources & Environment
- ◆ Sustainable Development in Urban Areas
- ◆ Sustainable Development in Rural Areas
- ◆ Irrigation Technologies
- ◆ Water Resources, Climate Change & Energy Scenario
- ◆ Managing Water Infrastructure
- ◆ Water & Health
- ◆ Green Innovations
- ◆ Modeling, Monitoring & Management of Water Pollution
- ◆ Future Plans for Sustainable Water Solutions
- ◆ Institutional, Policy & Legal Issues

## Call for Abstracts

An abstract of no more than 500 words is to be submitted containing complete information on the following:

1. Proposed title of less than 15 words.
2. Full name of author and co-authors.
3. Full contact address of corresponding author (including telephone, fax and e-mail).
4. Identification of the Congress theme most closely related to the paper. After confirming the acceptance of the presentation, authors will be required to send a complete version of the paper that will be included in the proceedings volume/CD ROM of the Congress.
5. Five keywords of the paper.

Abstracts can be sent by e-mail or postal service

## Exhibitor's and Delegate's Profile

An ideal platform to showcase your products and services to key decision makers of Water Industry, including representatives/ participants from:
