Glossary

[Above/Below] Poverty Line: To measure poverty, it is usual to look at the level of personal expenditure or income required to satisfy a minimum consumption level. The Planning Commission of the Government of India uses a food adequacy norm of 2,400 to 2,100 kilo calories per capita per day to define state-specific poverty lines separately for rural and urban areas. These poverty lines are then applied on India's National Sample Survey Organisation's household consumer expenditure distributions to estimate the proportion and number of poor at the state level.

Anganwadi: Pre-school or crèche, an initiative promoted under the Integrated Child Development Scheme (ICDS) of the Government of India.

Nirmal Gram Puraskar (Clean Village Prize): NGP is an incentive programme introduced by the Government of India that gives a cash prize to any local government that achieves community-wide total sanitation. More than a fiscal incentive, the award carries tremendous prestige as it is given by the Hon'ble President of India to block- and district-level winners and by high ranking state dignitaries to village-level winners.

Panchayati Raj Institutions: The term 'Panchayat' literally means 'council of five [wise and respected leaders]' and 'Raj' means governance. Traditionally, these councils settled disputes between individuals and villages. Modern Indian government has adopted this traditional term as a name for its initiative to decentralise certain administrative functions to elected local bodies at village, block and district levels. It is called Gram Panchayat at the village level, Panchayat Samiti at the block level and Zila Parishad at the district level.

Information, Education, Communication: IEC is the term used to describe software activities that support and promote the provision of programme services and facilities, for example, media campaigns, capacity-building activities, community hygiene promotion sessions, and so on.

Millennium Development Goals: The MDGs are eight goals to be achieved by 2015 that respond to the world's main development challenges. These include:

- Goal 1: Eradicate extreme poverty and hunger
- Goal 2: Achieve universal primary education
- Goal 3: Promote gender equality and empower women
- Goal 4: Reduce child mortality
- Goal 5: Improve maternal health
- Goal 6: Combat HIV/AIDS, malaria and other diseases
- Goal 7: Ensure environmental sustainability
- Goal 8: Develop a global partnership for development

Total Sanitation: A community-wide approach based on participatory principles which seeks to achieve not only 100 percent open defecation free communities but also broader environmental sanitation objectives such as promotion of improved hygiene behaviours and solid/liquid waste management.
