About the Conference:

With the contribution of urban population to national GDP most likely to touch 70 per cent this year, the urgent requirement for reforms in Urban Water Supply and Infrastructure, as earlier indicated by the Union Ministry of Urban Development needs much attention from both the public and private sector. With an aim to provide a common interactive platform to address this need, for all relevant stakeholders, ASAPP Conferences in association with PricewaterhouseCoopers will organize its 2nd Annual India H₂O Conference 2011, with the theme of 'Managing India's Urban Water Supply and Infrastructure' on April 19-20, 2011 at Intercontinental The LaLiT (Andheri East), Mumbai.

The 1st Annual India H₂O Conference 2010, inaugurated by Union Water minister Mr. Pawan Kumar Bansal, Minister of Water Resources was held in the month of May on the theme 'Development and Management of Water Resources for National Growth' and received overwhelming support and active participation from over 130 decision makers from Industry and central government.

At this annual, industry leaders and experts will discuss and deliberate over key challenges and opportunities in the distribution, supply and pricing of water; water & wastewater treatment technologies; operational challenges in the administration of urban water & wastewater systems and opportunities to overcome the same through Public Private Partnership (PPP).

The proceedings of the conference will serve as recommendations to the Union Ministry, towards better manageability and accountability of water in Urban India.

Key Issues:

The 2nd Annual India H₂O Conference 2011 will deliberate upon various issues as follows

Water Pricing and Sustainability for Urban India

- o Current practices in determining user charges and incorporation of economic principles
- o Challenges in implementation of JNNURM in Urban cities
- o Viability of project funding for Urban Water development
- o Implementing tiered metering in urban India

Water Technologies

- o Need for New Technologies in Water Management to provide safe drinking water at economical costs
- o Efficient water distribution systems
- o Waste Water Treatment Techniques
- o Role of Greywater Systems in Urban Water Supply

Operational Trends and Business Opportunities in Urban Water management

- o Efficiency in Operation to reduce Non Revenue Water
- o Central Implementation Monitoring Agency
- o Decentralized Water & Wastewater Management Systems in urban areas
- o Supporting Water Management Solutions through Operation & Maintenance

Using PPP effectively for Water Supply Management

- o Toolkit for Public Private Partnership in Urban Water Supply

Case Studies:

- o Implementation of Desalination Technologies in Urban Water Supply
- o India's first private water supply and sanitation project
- o India's largest Water Supply O&M Project in Mysore

Recommendations towards better Manageability and Accountability of Water in Urban India.

Speaker Profile:

Our speakers comprise of Government officials, Policy Makers, Industry Leaders and Experts who will share their knowledge and experience through keynote addresses, presentations, panel discussions and case studies.

To name a few...

- o Mr. Chetan Pandit, Chief Engineer, National Water Academy, Central Water Commission
- o Mr. B. Rajesh, Sr. Manager, Government Reforms & Infrastructure Development, PricewaterhouseCoopers
- o Dr. Suresh Kumar Rohilla, Program Director, Urban Water Management, Centre for Science and Environment
- o Mr. Sudeep Sangameswaran, Country Head, Norit
