

## ORGANISER

### *Cities Network Campaign –A Global initiative*

The Cities Network Campaign (CNC) is an initiative to connect south Asian cities, organizations, businesses and experts from academic & research organizations, from across the globe with a commitment to reduce the impacts of climate change and to make the world more green, clean and sustainable. One of the key programs of the organisation is the formulation of Low Carbon Sustainable Action Plans for Cities, which involves examining energy and GHG emissions, policies and regulation, markets and technologies in Indian cities.

## PARTNERS

### *Ahlcon International School*

Established in the year 2001, Ahlcon International School is a leader in school education. They ensure quality in their educational services through optimizing intellectual and infrastructural resources, capacity building, practicing ethical and transparent management principles and adhering to the core value system.

### *Department of Environment, Government of NCT of Delhi*

The Department of Environment has been assigned responsibility of improving the overall Environmental Quality in Delhi. Eco Clubs, programme by the department, plays an important role in creating environmental awareness amongst the future generations. 2000 Eco-Clubs have been established in Government, Aided, Private, Public Schools and Colleges of NCT of Delhi. The students are also exposed to field activities such as Nature Trails, Quiz and poster competitions etc. so as to create enthusiasm regarding issues pertaining to Plants/Forest/Wildlife/Bio-diversity and Nature.

### *UN-HABITAT*

UN-HABITAT, is the United Nations agency for human settlements. It is mandated by the UN General Assembly to promote socially and environmentally sustainable towns and cities with the goal of providing adequate shelter for all.

## International Conference on Green & Sustainable Schools and Academic Institutions

A Solution to Climate Change

22-23 November 2013, New Delhi

## THEMES

- Schools – Catalyst For Mitigating Climate Change
- Enhance Well-Being And Achievement
- Promote Healthy Lifestyles
- Inspires Behavioral Change
- Reduce Carbon Footprints And Boosts Climate Resilience
- Encourage Renewable Energy Technologies in Schools
- Increases School Community Cohesion And Fosters Collaboration
- Launch Sustainable Schools Network – India

## SCHOOLS AND CLIMATE CHANGE

Schools can do a great deal to reduce their greenhouse gas emissions and indeed, many of them around the world are starting to do so. Schools are taking actions and aiming to go carbon neutral, creating working groups, getting energy audits of their schools and then implementing suggestions. The main strength of schools is the positive spins offs of working together for a common goal while doing lots of different things at individual school levels and sharing the rich experience for wider acceptance of initiatives by each school.

## WHY PARTICIPATE?

- Network with national/ international school leaders and top decision-makers from schools, policy, technology, infrastructure, architecture, renewable energy, finance, etc from across the globe;
- Listen to thought-provoking and inspiring keynotes by leading thinkers and practitioners (principals, vice principals, senior teachers, experts and others);
- Be a part of a platform to discuss, debate and develop model solutions for schools in India and explore potential area of improvements;
- Network with technology providers with innovative technologies in the area of energy efficiency and renewable energy specifically for schools;

## The Conference

The objective of the conference is to convene a high-profile gathering of school principals, higher authorities, subject experts, policy makers, national/ international organizations, technology providers, funding organisations working in the area of climate change to discuss, debate and develop model solutions for schools in India.

**our future generations  
our hope**
