BioSand Water Filters can remove up to 99% of bacteria & viruses, and further eliminates worms, parasites, amoebae, protozoa, metals, and arsenic, **providing safe water for a family or community.** *Learn how to eliminate waterborne illnesses!* **BioSand Filters** are currently being used in several countries, and in multiple locations in India: Karnataka, Bihar, Tamil Nadu, West Bengal, Assam, Maharashtra, and more. They are used in homes, schools, hostels, and clinics. *The results have been astounding!*

The training will be led by *Center for Affordable Water and Sanitation Technology (CAWST) & South Asia Pure Water Initiative, Inc. (SAPWII).* **Highly qualified trainers from Canada, USA, and India will be conducting the training.**

THE FIVE DAY TRAINING WILL COVER:

- **BioSand Filter** theory and design
- Hands-on fabrication, testing, assessment, and trouble-shooting
- Community health and sanitation training
- Local implementation models and business planning
- Work with others from around the world implementing this simple, eco-friendly, low-cost household technology

Following completion of the class, participants will receive certifications and will be eligible to train others in **BioSand Water Filter** fabrication, and become part of our *global family*.

COST: Rs 3500 includes tuition, food, and shared accommodation for 5 days

PARTICIPANT PROFILE:

- Preferably speaks English (if not, Hindi is ok)
- Has an awareness of the need for *safe water*
- Motivated and prepared to implement the Biosand Filter project
- Capable of organizing projects and is a decision-maker
- Has shown exemplary *leadership* and is *inspirational* to others

INFORMATION & REGISTRATION: We strongly recommend at least 2 people from each NGO attend. Please email Nalini Titus at nalinititus@gmail.com Be sure to include each person's Name, Address, Email, Phone Number, and any Experience with water purification or other social projects. No prior experience is necessary!

TRAINING GUIDELINES: You must arrive on Oct 8th to check-in, training begins sharp on Oct 9th at 9am. You must attend all 5 days. Training ends Oct 13th at 5pm. Please plan your travel accordingly. Wear closed-toe shoes.

SPONSORING ORGANIZATION: South Asia Pure Water Initiative, Inc., a US-based non-profit organization is sponsoring the training. www.sapwii.org

What is a BioSand Filter?

Filter Removes the Following: (from rivers, lakes, wells, rainwater)

100% of viruses
